**Niagara Falls Bridge Commission Retains e3communications
for Public Relations Services**

BUFFALO, NEW YORK – e3communications today announced that the agency has been retained by the Niagara Falls Bridge Commission for public relations services.

The Niagara Falls Bridge Commission was created by a joint resolution of the 1938 U.S. Congressional Third Session. The Commission oversees the management of three international bridge crossings between the United States and Canada: the Rainbow Bridge, Lewiston-Queenston Bridge and the Whirlpool Bridge. The NFBC builds and maintains all facilities for Customs and Immigration functions on both sides of the international border and is self supportive, largely through user fees and private-sector tenant leases.

With offices in Buffalo and Albany, e3communications is a full service public relations and public affairs agency that provides clients with various public relations services, including issues management, media training, crisis communications as well as government affairs services. For more information please visit www.e3communications.com.
